

## VLR 70 S Trend EN

DECENTRALISED

PRODUCT-NO.: 200002

Experience a strong performance in an inconspicuous design

This decentralised ventilation unit supplies fresh air to up to 60 m<sup>3</sup> of living space. Virtually no heat is lost, as it is fed back into the room with the outdoor air supply. This can help to reduce heating energy losses by as much as 89 %.

Keep pollutants out

Dirt and pollen don't stand a chance of finding their way into your home through this ventilation unit. Particularly good filter performance is achieved by filters on both the inside and outside of the unit. As a result, people with allergies can breathe a sigh of relief as well.

The main features

Decentralised ventilation unit for rooms with external walls

---

Very easy to clean thanks to the aluminium surface of the heat exchanger

---

Can provide intensive ventilation with low noise emissions

---

High air quality, plus long service life through the use of two filters per fan

---

Fitted with a fine dust/pollen filter making it ideal for allergy sufferers

---

Moisture recovery of up to 60 %

---

Control up to 8 units with the user interface

---

Recovery of up to 92 % of the thermal energy in the extract air

Type	VLR 70 S Trend EN
------	-------------------

Part no.	200002
----------	--------

**Technical data**

Air flow rate	20/30/40/49/70 m#/h
---------------	------------------------

IP rating	IP21
-----------	------

Rated voltage	24 V
---------------	------

Sound power level LW total relative to air flow rate	35 (20 m#/h) dB(A)
--	--------------------

Weight	5.20 kg
--------	---------

Min. outlet aperture	# 200, 185x185 mm
----------------------	-------------------

Height	285 mm
--------	--------

Width	360 mm
-------	--------

Depth	590 mm
-------	--------

## **Contact information**

**You have questions? We appreciate to help you:**

**Call 02-021-9300**

**Write an email to [th-info@stiebel-eltron.com](mailto:th-info@stiebel-eltron.com)**

## **Installation information**

**Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in. The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.**
