

SNOW (STE)

DOMESTIC USE

PRODUCT-NO.: 205609

The perfect choice for your kitchen

The SNOW water filter is the perfect choice for your kitchen and care for your family's health to make your drinking water better than the last.

Convenient for you

Powerful and high efficiency RO membrane provides high and consistent filtered water to fill up the tank faster and reduce the wastewater with lowest RO system.

The SNOW water filter has a distinctive and modern design that is compact, space-saving. For this reason, it fits all kitchen styles.

The main features

The powerful RO membrane provides 600 gallons of filtered water per day to fill up the tank faster

High efficiency RO membrane reduces the ratio of wastewater to 40% of the feedwater

6-stage filtration in 2 cartridges provide a good tasting and safe drinking water source

LED filter lifetime indicator consisting of a light and an audible alarm alerts the user when the cartridge is due for replacement

Saves space while maintaining maximum filtration performance

Compact and lightweight design for space saving installation

“Twist” system for filter replacement without tools

Type	SNOW (STE)
Part no.	205609

Technical data

Height	36 mm
Width	14 mm
Depth	37.5 mm
Weight	5.15 kg
Filtration stages	5 Stage
Filter stage 1	Pleated sediment - 5 #m
Filter stage 2	Carbon fibre
Filter stage 3	Pleated sediment - 5 #m
Temperature range	4 - 35 °C
Rated voltage	220 V
Electrical connection	1/N/PE~220-240 V
Draw-off option	Swan neck tap
Colour	white
Installation type	Undersink
Maximum water pressure	4 MPa
